RESEARCH AND DEVELOPMENT CELL (Established as per the UGC Guidelines, March 2022)

Objectives:

- ✓ Develop an organizational structure for Research and Development Centers (RDC) with defined roles, create Research Policies for Higher Education Institutions (HEIs), identify key research areas, and establish collaborative groups of researchers.
- ✓ Enhance Research Policies to facilitate the recruitment of research personnel, procurement of equipment, and financial management, ensuring autonomy for Principal Investigators. Disseminate research outcomes to stakeholders and the public.
- ✓ Establish a dedicated entity to support researchers and innovators, foster collaborations with industry, research organizations, and academic institutions. Facilitate synergistic partnerships and act as a liaison with research funding agencies.
- ✓ Coordinate with University-Industry Linkage, Incubation, Innovation, Entrepreneurship Development, and Intellectual Property Rights (IPR) units for better synergy.
- ✓ Develop an Institutional Research Information System utilizing Information & Communication Technology (ICT) to share ongoing/completed research projects, expertise, and resources. Create a database of in-house experts for industrial consultancy.
- ✓ Engage retired faculty/scientists to contribute to research capacity building, promote mobility of researchers across institutions and R&D Labs.
- ✓ Serve as a central hub for ideation and conceptualization of research topics by organizing workshops and training programs. Ensure ethical practices in research activities, including clearance from bioethical committees when necessary.
